THE STORY SO FAR...

THE DESOLATE CONVERGENCE

The Earth for ages has struck back at mankind through storms, earthquakes, tsunamis and other means.

Now the Earth has gone beyond, manifesting its power to exterminate mankind and warp the creatures upon it.

But just as mankind begins to wane and fall to Earth's elemental might, new humans born of elemental power, or warped by Earth's new elemental manifestations, begin to make themselves known.

Now the Elemental Wars begin, as these new elemental "heroes" stalk the land, fighting for what's left.

THE ELEMENTAL WARS HAVE BEGUN. PICK YOUR HERO!

HOW TO WIN

Two heroes duel with **dice**, **elemental resources** and **cards**. Knock the other hero from **30 health to 0** and you win!

- Each hero has **8 abilities**, a **30-card deck** (15 hero + 15 generic) and four resources: 🔥 Fire, 💧 Water, 🌿 Nature and their own element.
- Start with **1 of every resource** and **4 cards**. The second player gets 1 extra of their own element.
- Each resource goes from 0 to 10.

KO!

YOUR TURN, PANEL BY PANEL

1

INCOME

Draw 1 card and roll your 6 dice. Pick what wild dice become, then collect: each die gives 1 resource.

2

MAIN 1

Play actions, core stones and instants.

3

COMBAT

Use your hero's abilities, each once per combat, if you can pay.

4

MAIN 2

Play more cards.

5

END

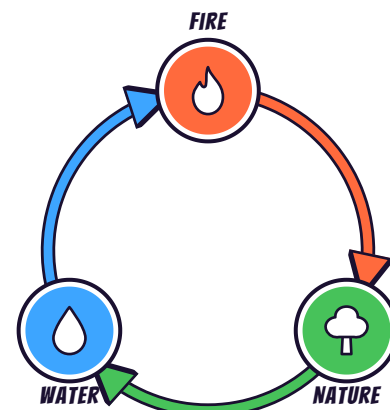

End-of-turn effects, then pass to your rival.

DICE & RESOURCES

1  Fire	2  Water	3  Nature	4  Your element	5-6  Wild!
--	---	--	--	---

Opposite faces add up to 7: flipping turns 1 ↔ 6, 2 ↔ 5, 3 ↔ 4. A ⚡ star cost means **any element**.

Short on power? Discard a card on your turn to gain its cost back, minus the left-most icon (max 3).

The wheel: Fire beats Nature, Nature beats Water, Water beats Fire.

	Lightning beats Water		Ice beats Nature
	Steel beats Nature		Lava beats Steel
	Time beats Darkness		

BEATING AN ELEMENT MATTERS!

When you **defend**, a resource that beats the attack blocks **2** instead of 1. In the dungeon, hitting a monster with an element that beats it deals **+1 damage**.

CARDS & COMBAT

ACTIONS

Play them in a main phase.

INSTANTS

Play them any time, even on your rival's turn!

CORE STONES

Stay on the table with their own health and effect. Max 3 (Steel Hero: 4). Damaged cores crack!

GETTING HIT? DEFEND!

1. Spend up to **2 resources**: each blocks 1, or 2 if it beats the attack.
2. Or play a **defense card** like Defensive Shield or Shadow Step.
3. Your cores' defenses and your **shield** soak the rest.

Unblockable damage (black star) can't be blocked, but shield still soaks it. Attacks aimed at a **core stone** skip the defend step.

BLOCK!

BURN

After the burning player rolls, they take damage equal to their Burn, then it halves. 1 Water removes 2 Burn. Max 8 (10 in the dungeon).

FREEZE

Frozen dice don't roll. Enemy-frozen dice still give their resource. Melt them for 1 Fire.

SHIELD

Soaks damage before your health.

DRAIN

The enemy loses a resource you choose.

REFLECT

Sends damage back at the attacker.

NEGATE

Cancels a card as it is played.
